**Aims and Scope:**

The journal publishes results of original research on both basic and clinical aspects of the developing nervous system, ranging from simpler nervous systems in invertebrates and *in vitro* growth of neutral cells to regenerative processes under experimental and clinical conditions. Papers concerned with both *in vitro* and *in vivo* studies are invited for editorial consideration.

The journal will also publish original articles, editorials and reviews and communications from the International Society for Developmental Neuroscience covering all the latest developments in the field. Its main aims will be to facilitate the transfer of basic information to clinical applications and to promote an understanding of the fundamental mechanisms of neural growth and development.

*Production Controller*: JULIE SULLIVAN

*Publishing, Subscription and Advertising Offices*: *Headington Hill Hall, Oxford OX3 0BW, U.K.* (*Oxford* 64881)
*Six issues/annum. Subscription for* 1988 (*including postage and insurance*): *annual institutional subscription rate* (1988) DM 535.00; *2-year institutional rate* (1988/89) DM 1016.00. *Subscription enquiries from customers in North America should be sent to*: *Pergamon Journals Inc., Maxwell House, Fairview Park, Elmsford, New York* 10523, *U.S.A., and for the remainder of the world to*: *Pergamon Journals Ltd., Headington Hill Hall, Oxford OX3 0BW, U.K.*
*Personal subscription rate for those whose library subscribes at the regular rate* (1988) DM 185.00.
*Prices are subject to change without notice.*
*Those interested in joining the International Society for Developmental Neuroscience should write to Dr Giorgio Gombos, President of the ISDN, Centre de Neurochimie du CNRS, 5 rue Blaise Pascal, 67084 Strasbourg Cédex, France*

Current subscriptions are available on microfiche simultaneously with the paper edition and on microfilm on completion of the annual index at the end of the subscription year.
